AKM-405

Compact and durable

WEZAG

Features

Technical data
Pneumatic stripping machine | Air pressure 6 bar | 87 PSI

Application Range
Stripping and removing insulation from cables with large conductor cross-sections from 6 to 70 mm², insulation diameter 4 to 15 mm, to a stripping length of 5 to 50 mm

Flexible
applicable due to different blade pairs

Reliable
Quickly achieve the perfect stripping result thanks to precise cable guidance including 6 guide sleeves

Expandable
with the crimping machine UP 60-CFM, the optimal wire processing solution for the high-voltage range

Customized
Customized versions in design and function are available on request

Reliable
Quality Made in Germany and CE compliant
